

Demand for Skid-Monster continues to Rise

As communities, large insurance agencies, schools, and governments push for stronger teen driver awareness programs and stricter teen driver regulations certain driving schools have gone above and beyond the expected and have added Fred Mottola's Skid Monster program to their offerings.

Training Wheels Driving School
Defense Driving School
911 Driving School

These avant garde driving schools in doing so have solidified their presence in their communities, have been credited with keeping teens as well as all students as well as the public safer, and are leading the path to safer road ways everywhere. All of us here at DSF-USA have already experienced the Skid-Monster instruction personally, and thereby huge advocates of the program. If you have the time and interest please visit our calendar of events and sign up for an event that works with your schedule. Also spread the word, and have your local driving school become Skid Monster/DSF certified.
